Backend: Node.js, Express.js, Nest.js, Prisma, PostgreSQL, MongoDB, JWT, Socket.io

Tools & Platforms: Git, GitHub, Figma, Vercel, Netlify, Cypress, Storybook

Soft Skills: Attention to Detail, Time Management, Communication, Collaboration

EXPERIENCE

Full-Stack Developer | I38 Agency (Iterate Design Firm)

Remote | September 2024 – January 2025

- Built responsive website templates and reusable layouts from the ground up, ensuring semantic structure, accessibility, and consistent performance across devices and browsers.
- Integrated content management systems (WordPress) so non-technical teams can manage site content dynamically and efficiently.
- Partnered with UI/UX designers to translate mockups into pixel-perfect, functional interfaces—reducing design-to-development turnaround and improving client satisfaction.
- Contributed to full-stack features involving Node.js, database integration, and authentication flows as project requirements demanded.

Freelance Team Lead

Remote | September 2023 – October 2023

- Structured the WordPress admin area for easy use by non-technical content managers, enabling them to approve jobs, review applications, and manage content independently.
- Designed and developed a fully custom WordPress theme from scratch for a job platform, delivering a modern, responsive UI tailored to the product's use case.

EDUCATION

Tai-Solarin University of Education — B.Sc. Computer Science
